Their destination is Vancouver, W. T. These troops go out provided with 600 of Sharpe's carbines, and a large quantity of prepared ammunition. The adoption of this arm for the present service is due to the influence of Brevet Major Thornton, who was sent to the far west to inspect the troops, some time since, and who inspected the first dragoons in the Department of New Mexico, and saw the necessity of the adoption of some

cludes in the following remarkable strain:

The London Times on Cuba, The London Times continues to advocate a transfer of Cuba to the United States. On the 14th inst. it had an elaborate article on the slave trade, which con-

"At this time, if we really wish to stop the slave trade, and are ready to sacrifice our national jealousies to that object, we have already hinted at a most effectual course. The United States are, unfortunately, not above allowing the irregular use of their flag in the slave trade between Africa and Cuba. But they stand | tinguished practical dentist : rather too high in the scale of nations as well as in their own esteem to permit a slave trade into their own ports. Unba once annexed, the whole trade comes to an end, and wretched cargo. Spain has long since forfeited all abso-tute claim to our interposition in her behalf. Indeed, by this time, we presume, she would rather not be assisted by us, be the cause good or bad. Are we, then, prepared to make this sacrifice of national feeling for the sake of that philanthropy which we are always preaching to the world at the point of the bayonet and mouth of the cannon? We ask no reply; we only suggest that if England chooses to regard the slave trade as the greatest of human crimes, and its extinction an object worth fleets, quarrels and wars, then she may some day be called on to prove her sincerity by acquiescing in the only means to this end, however disagreeable. We only wish that Spain could be warned in time; but warning is not for Spain. Had she listened to warning she might still have stood in the first class of nations. But as far as Spain is concerned, we must bow to Lord Palmerston's authority. She only regards force. Unfortunately, with all our cruisers, we have not the same leverage upon her as that in the hands of our American cousins. We may vainly attempt to watch her ports and scrutinize her traffic ; once they step in, they will wipe out not only the slave trade, but Cuba itself, from tify the list of Spanish iniquities."

A PEOPLE WITHOUT TEETH .- Dr. Livingston's Travels in Africa, recently re-published from the English edition, by the Harpers, is considered one of the most val- any other, say uable books of modern times. Among many curious "We think highly of your article, and expect it to have a and amusing things in it, is the following account of a large sale."

BARNES & PARK, New York. strange deformity existing in a tribe of negroes in the sun-roasted country he had explored. Every man, woman and child connected with the tribe are without front teeth. Inquiring into the cause of this unnatural appearance, it was given to him thus:

Once upon a time, the chief of the tribe, like many better men in civilized countries, was possessed of a refractory wife. He endured her impudence and annoyance for many years, but one day in his passion, becoming suddenly aroused, he gave her what is termed in civilized parlance a "plug" in the mouth with his fist. The blow must have been well aimed, for it relieved the mouth of the proud woman of all her front teeth. Thus despoiled of beauty the sable matron hid herself in shame, always has given good satisfaction. and afterwards became a tractable and obedient wife.-The warriors of the tribe in council assembled, observed the good results of that one blow of the chief, and being did not urge its sale, being unacquainted with the article; to his home, and rested not contented until their wives whatever. Every day brings new testimonials of its efficacy were forcibly reviled of their front teeth.

EXCITEMENT IN WELDON, N. C .- A man by the name of Isabell has, it appears, been residing in this place for some length of time, under circumstances of rather extraordinary mystery and singularity. It appears that Isabell has never been seen out of his house during the day time, nor has he ever been seen to associate with a white man, but has every night a crowd of negroes around his house, to whom he sells whiskey, and from Prepared from a prescription of Sir J. Clarke, M. D. whom he buys whatever said negroes can steal, or in any way pick up. It moderates all excess and removes all convict him, so that a few days ago a portion of our obstructions, and a speedy cure may be relied on. citizens formed themselves into a committee, and waited on Isabell, and gave him his orders to leave by Tuesday evening, the 27th July, in default of which he was to be treated to a coat of tar and feathers. Accordingly, finding on Tuesday evening that he had not gone, and hearing that he had resolved not to go, the committee proceeded to take the law into their own hands, and after due trial and conviction, he was sentenced to receive a oat of tar and feathers, and to be escorted out of town, which sentence was executed in due form.

EXTRAORDINARY BIRTHS .- It is stated by Burdock that the wife of a countryman in the Moscow district known, and so highly recommended by Mayors of cities, had given birth to 69 children at 27 confinements—four Members of Congress, Physicians and Merchants of the times four at one birth, seven times three, and sixteen highest standing, as he has shown by the certificates pub-

times twins. In the year 1809, the Vienna newspapers contained the following announcement :- Maria Anna Helen, the wife of a poor linen weaver in Neulerchenfeld, 20 years married, bore at seven confinements, 32 children-28 living and 4 dead; 26 were males and 6 females; all were begotten by one man, and nursed by herself. She had at her last confinement three children, one living and two dead. Her husband was a twin, she herself one of four. Her mother had produced 38 children, and died during a confinement with twins. The adelphia. greatest number of children ever produced at one birth appears to have been six, all of whom were boys, and all dead. The woman who gave birth to them had been twice married, and already given birth to 44 children; during her first marriage, which lasted 22 years, she turer in the world of Electric Oil. bore 27 boys and 3 girls; in her second marriage, which lasted but three years, she bore 14 children—three at W. H. Lippitt, Druggists, and by Druggists and Merchants at the first, five at the second, and six the third confine generally.

Courage and Patience. Life is sad, because we know it. Death because we know it not : But we will not fret or murmer-Every man must bear his lot. Coward hearts, who shrink and fly, Are not fit to live or die!

Knowing life, we should not fear it. Neither death, for that's unknown : Courage-patience-these are virtues Which for many sins atone. Who have these-and have not I?-He is fit to live and die!

The modern instances below may be commended to the attention of the Uncle Tom's Cabin coteries :-CRUELTY TO A GIRL.—At the common pleas court at Lenox, week before last, Judge Aiken sentenced Francis

"The case, as related by the district attorney whose statements were made from evidence taken before the grand jury, and verified by all conversant with the facts in the case, is one of the most brutal and cold blooded I ever heard. It was well remarked by the judge when he cutta and 40 from Delhi, and in sight of the Himalaya passed sentence, that 'it was all that the law would allow him to do, but he could not but consider it inadequate to the crime committed.' No excuse was pretended to be given for the many whippings giving the little girl, except that she once, without license, took and eat half a pint of cream, and at another time drank some maple sap without first obtaining permission. Her skin, from the hair of her head down to her feet except on her fore was but one mass of lacerated wounds and bruises, made with straps ropes and sticks."

Its praise is upon the tongue of thousands. The Agent for Prof. Wood's Hair Restorative in New Ha-

ven, received the following letter in regard to the Restora-

tive, a few weeks since: DEEP RIVER, Conn., July 23, 1856 Mr. Leavenworth-Sir: I have been troubled with dandruff or scurf on my head for more than a year, my hair began to come out, scurf and hair together. I saw in a New Haven paper about "Wood's Hair Restorative" as a cure called at your store on the 1st of April last, and purchased one bottle to try it, and I found to my satisfaction it was the thing; it removed the scurf and new hair began to grow; it is now two or three inches in length where it was all off. I have great faith in it. I wish you to send me two bottles more by Mr. Post, the bearer of this. I don't know as any of the kind is used in this place, you may have a market for many bottles after it is known here. Yours with respect,

PHILADELPHIA, Sept. 9, 1856. Prof. Wood-Dear Sir: Your Hair Restorative is proving itse'f beneficial to me. The front, and also the back part of my head almost lost its covering-in fact BALD. No. 464 Vine street.

VINCENNES, IA., June 22, 1853. Prof. O. J. Wood: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state. for whomsoever it may concern, that I have used it and known others to use it—that I have, for several years, been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this, without discoloring the hands that apply it, or the dress on which it drops. I would, thereore, recommend its use to every one desirous of having a fine color and texture to hair. Respectfully yours,
WILSON KING.

BŒRHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA, DISEASE OF THE KIDNEYS. LIVER COMPLAINT, WEAKNESS OF ANY KIND, FEVER AND AGUE. And the various anections consequentupon a disordered

STOMACH OR LIVER. Such as Indigestion, Acidity of the Stomach, Colicky Pains,

Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Borhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally, instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular

CAUTION: The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not pursuaded to buy anything else until you have given Bærhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these
